Exhibition

City of Newcastle is proposing the following traffic or parking amendment:

It is proposed to install "4P (9am-5pm Mon-Sun) on the northern side of Barclay Street Mayfield, between Rawson Street and Roe Street.

The proposed changes are in response to a request from a local resident to improve parking availability at the location.

Currently there is unrestricted parking on both sides of Barclay Street. Observations have indicated that on-street parking in the area is frequently occupied by long-term parking, impacting the ability to access available parking in the area.

CN, at any one time in all locations across the city, targets an 85% occupancy rate. That is, motorists seeking parking should find one parking opportunity for every 7 spaces checked. Currently the parking rate in this area often exceeds this level of occupation.

This proposal will allow a higher rate of parking turnover, improving access to parking in the area.

It is noted that most residents in Barclay Street possess two or more off-street parking spaces. As such "Residential Parking Permit" scheme cannot be applied to Barclay Street. Any parking restrictions installed will apply to all legally parked vehicles, this includes resident vehicles.
